

Declaration of Conformity pursuant to EU Packaging Regulation 2025/40 (PPWR)

We confirm that the packaging placed on the market by Hauff-Technik GmbH & Co. KG meets the requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR) regarding material identification, documentation, and recyclability assessment.

The packaging for our products does not contain any substances listed in Annex XIV of EU Regulation 1907/2006 ("Substances of Very High Concern") in concentrations exceeding 0.1% (w/w).

Furthermore, we confirm that the total concentration of the heavy metals lead (Pb), cadmium (Cd), mercury (Hg), and hexavalent chromium (Cr VI) does not exceed 100 mg/kg.

Traceability of the packaging in accordance with Article 12 of the PPWR is ensured by the indication of the type designation (e.g., PAP20 for corrugated cardboard).

The type designation is either printed directly onto the packaging material or appears on a label affixed to the packaging.

Identification of the packaging producer in accordance with Article 12 of the PPWR is provided either by direct printing on the packaging materials or via accompanying documents enclosed with the packaging.

Best regards

HAUFF-TECHNIK
GmbH & Co. KG
